

OPPORTUNITY FLOWS

Ohio River Tunnel Project

\$200 Million Project Estimate

Louisville MSD's planned 2.5-mile Ohio River Tunnel will be 20-24-feet in diameter and located approximately 200-feet below the surface. Underground storage is part of MSD's larger endeavor to prevent sewage overflows in our waterways. Construction of the tunnel is expected to begin in summer 2017, and will be operational by the end of 2020, with total project completion by the end of 2021.
